

Guide – Translate SexLab Kidnapped Redux

by vinfamy

I really appreciate anyone's efforts to translate the mod into other languages. Once you complete a translation, please message me a link and I will be very thankful and very happy to put a link to your translation in SLKR's OP.

Due to the nature of the mod, it can be a bit hard for translators to track where all the texts are, so I have listed them all below to make life easier for translators:

- Miscellaneous > Messages > everything starting with prefix SLKR
- Quest > SLKR_FindRapists_Quest > Player Dialogue for all NPC-NPC conversations
- Quest > SLKR_Rescue_Quest and SLKR_Revenge_Quest for all texts related to the revenge and rescue quests including the stuffs with the Thieves Guild and Companions (i.e. in Quest Objectives, Quest Stages and Player Dialogues)
- Quest > SLKR_Rescue_Innkeeper and SLKR_SelectVictim_Quest > Player Dialogues
- Quest > SLKR_PlayerAlias_Quest > Quest Aliases > SLKR_PlayerAlias_RA > Properties > Perversion Comments for all the player's perversion comments
- Quest > SLKR_MCM_Quest > Scripts > Properties > edit all the String[] arrays for all texts in the MCM menu
- *(I tried to avoid this as much as possible but can't be helped in certain situations)* Download my source files and look for "debug.notification" in the following scripts and then recompile them:
 - SLKR_PlayerAlias_Script.psc
 - SLKR_Rescue_InnkeeperGive.psc
 - SLKR_Revenge_ComPay.psc
 - SLKR_Revenge_ComSex.psc
